## Portable & Stationary Pressure Washers

- Industrial rated pressure washer for heavy duty use.
- High pressure soap provides superior cleaning compared with soap injector systems.
- Triplex ceramic direct drive plunger pump operates at half the speed of comparable direct drive pumps for reduced wear and quieter operation.
- Pressure regulating unloader valve for easy pressure adjustment.
- Glycerine filled pressure gauge shows operating pressure.
- Durable powder coated frame and steel components.
- Soap control allows for easy on and off operation as well as adjustment for desired soap concentration.
- Convenient removable 3.5L soap container.
- Poly water reservoir with brass level control.
- Semi-pneumatic wheels allow for easy movement (-P model).
- Honda GX160 industrial grade 5.5 HP engine on gas engine model. 1.5HP 120V TEFC industrial electric motor on electric model.
- Supplied with 35 feet of wire braid high pressure hose, quick couplers, trigger gun, high pressure swivel, insulated wand and stainless steel nozzle.
